Comments: I am writing in support of the Alternative 2 proposal for the development of Lemon Gulch.

Alternative 2 appears to be offer the best combination of trails for all types of use and skills while expanding the trails available here in Central Oregon. I believe that enjoyment of public lands should be optimized to provide a variety of locations and different types of experiences while preserving the land's habitat. Lemon Gulch would greatly increase the trail system in the Ochoco Forest while barely making a dent in what is called for in the overall management plan.

Outside of the forest proper the Lemon Gulch proposal would also add to the local economy as more people would be able to enjoy the forest as well as Prineville.

Thank you for your consideration.
