Comments: Hello

I would like to express my support for the Lemon Gulch trail proposal. I believe that Alternative #2 would afford the best recreational opportunities for the area, would result in the fewest conflicts between different users (mountain bikers, equestrians, hikers), and would best advance Prineville's character and economy.

As a mountain and gravel biker, hiker, and cross country skier in Bend, I have seen how important the trail system is to so many people. I think the trails result in a happier, healthier, safer community. The more trails a community has, the fewer conflicts there are amongst users.

I love Prineville and I would like to see the town prosper. Each time that I visit for the mountain or gravel riding, I contribute to the town's economy. The more miles of trails that the area enjoys, the more prosperous will be Prineville's economy and the more interesting will be its character.

Thank you for your efforts. I can't wait to see the results!

Richard Turney
