First name: Kenny

Last name: Holtz

Organization:

Title:

Comments: As a Montana resident with 100+year family lineage in the state we wholeheartedly support this land exchange.

Effective and robust access to public lands is incredibly important. Land exchanges have pros, cons and goals to be balanced in a fair and equitable way. This proposal is a good example of how the challenges can be resolved for all parties and the public at large with a thoughtful harmonious win-win outcome.

The leaders of this proposal have an established track record as being trustworthy and good stewards of the land. We encourage others to get behind this great plan and support this land exchange.
