Comments: To whom it may concern I'm writing this letter in reference to the crazy Mountain land exchange. Let it note that I am 100% against the proposed land exchange. Yes it may create easier access to hunter and recreation, i believe it will be taking away from the true back country experiences that need to be held onto in this state. It also will stay a bit more wild. It seems like some of the parcels traded seem to be unfair to hunters. I don't feel we need to invest in new construction through the crazy mountain for a 20+ mile trail system.

Also I fear that with some of the party's involved in this land exchange, that soon if will be just small community's of \$10-20 million dollar homes.

Seems like a unfair deal for the public!
