Comments: It's absolutely disgusting y'all think the general public is dumb enough to not know who is behind this laughable proposal. The yellowstone club has done enough damage to this state. Just as Lueschen doesn't need heliskiing, the YC doesn't need a 2.0 club at the Marlboro. Do your work for the public like the job description entails. You should all be ashamed this is the proposal you set forth. And be thankful your positions aren't elected.
