Comments: I oppose the Crazy Mountain Inspiration Divide Land Exchange # 63115 alternative A, please have no action on this misinformed and totally non Montanan action. Please find a different alternative to present us MT folks that have used and love this area and Sweet Grass Creek Trail! Fishing , hiking , hunting, this area is a gem not to trade off for a different trail of no significance, or importance to so many Montana folks. hauling horses there from here or just being able to bush-wack into Sweet Grass trail is spectacular and one of few ways to enter this country other than an over used Northern route I have also used several times elk hunting. I have had to leave several areas over east due to rich people buying the country and blocking Montana folks from entering areas they have hunted for antelope, deer, etc. for generations. Please for MT folks drop this alternative A thank you for allowing comment.
