Title:

Comments: What the h*** is wrong with US forest service district one. Why do you keep continuing to try and screw the public. We have had enough of this s***. The wealthy do not rule Montana and you need to realize this before it becomes detrimental to your public position and well being. We have had enough of these back room deals, Benefiting the wealthy, And pushing the public interests to the bottom of the list. You tried to screw us with the Holland lake project, And now you're trying to screw us in the crazies once again. This is nonsense. Stop.
