Comments: I am in support of all proposed mountain biking trails in Lemon Gulch. Mountain biking continues to explode in popularity and we need as many trail systems as we can get, especially as the west side trails get more and more populated by summer tourists, which is great for the local economy, but puts additional pressure on Phil's and other popular trailheads in the area. I would push for proposal #2 which creates the largest trail system possible to help future proof the area and lessens the need to redevelop additional trails in the near future.
