First name: Anna

Last name: Broquist

Organization:

Title:

Comments: Stop letting rich people do whatever they want. No matter your socioeconomic status, everyone's voices should be just as valued as the next. However, when someone lives near and regularly uses public government lands that they enjoy and respect, their voices should be put above some far away people with lots of money who want to ruin the land in order to make more money. We've been invaded enough, just let us be please.
