Comments: To whom it may concern,

As a resident of Gallatin Gateway, I support the citizen-proposed land exchange between the Yellowstone Club and the U.S. Forest Service. This will not only expand the ski terrain of the Yellow Stone Club but it will also improve access to the public to quality public lands in both Crazy Mountains and the Madison Mountain Range. I believe it will be beneficial to all Montanas as we will secure land into conservation easement and will prohibit residential development.

Thank you in advance for your efforts in benefiting all Montanas.

Sincerely,

Mariana Campero Greenberg
