Comments: The East Crazy Mountain/Inspiration Divide Land Exchange #63115 is a win-win for our landowners in Sweet Grass County. This project should help the access issues on Rein Lane, which has never been a recorded access or easement, despite what some Forest Service Employees believe. This project is also a win for hiking, hunting and camping enthusiasts wishing to use the new proposed trail to access some of the mountain lakes and pristine ground that the Crazy Mountains have to offer.

This collaborative effort at the local level has proven effective. The entities involved were all able to sit at the table and make positive, informed and effective decisions.

The Crazy Mountains are a big part of my life and I care very deeply about what happens there. I know the landowners that are involved. They are trying to preserve their way of life without constantly having to fight a battle over access.

I support this project.

J.V. Moody
Sweet Grass County Resident
