Title:

Comments: Although I do not live in Oregon, I am an avid trail user as a hiker and mountain biker. I often travel with my mountain bike to places like Moab, Fruita, Sedona, etc specifically for mountain biking vacations. I spend money in these places and would like to visit Oakridge and Lemon Gulch in the future to explore the trails and towns. I support this project and Alternative 2 specifically. If the USFS can build more trails to enable more people to enjoy their public lands, that is a great win. I trust you as the land managers will make the best decision and thank you for your difficult work in finding compromise.
