Comments: Please accept this letter in support of the Lemon Gulch trail system. The Ochoco Trails Coalition has spent significant time gaining support for this plan and review access options for multiple trail user groups. Mountain biking continues to grow and alternative 2 will provide a variety of trails that are purpose built for mountain biking in a concentrated area. This allows for an increase in options for trail users and while there is a concern about sharing with grazing rights, there are many examples of trails sharing the land with ranching and grazing areas with minimal to no conflicts. If a compromise to the full 50+ acre build is needed, alternative 6 would be a good starting point and show the opportunities for multiple trail and land uses in the area.

Sincerely,

Abbie Wilkiemeyer
