Comments: I strongly opposed the land exchange. I'm deeply concerned about diminishing and uncertain access to our public lands. I have strong objection to potentially losing sweetgrass land access. I'm oppose to water and mineral rights being placed to the private land owners on some of this acreage. I'm extremely against any further development for private and in accessible organisations like the Yellowstone club developing our wild areas that are essential for our ecosystem and truly are the most powerful and unique qualities our state has
