Title:

Comments: I do not agree that this project is in the best interest of Idaho citizens, wild life, precious and increasingly stressed waterways or even safety on roads particularly in an area where the roads are narrow and increasingly well traveled. What about the effect on our tourism as it threatens the very reasons that people come here to spend money on vacations to our pristine natural i environment. The idea that the money that can be wrong from our land is more important than the land itself is a main reason our environment is threatened by overuse, climate change and provocation of what belongs to the people. I strongly disagree with this project. Say no.
