Comments: Hello, Please pass this and continue the process of this land swap. It will not only support the regional economy for Big sky by allowing for continued medium impact development in the Yellowstone club but it will allow them to have recreation in land that is pretty much landlocked to the public anyway. However, much more significant is the public recreation access to the Crazies. Not only for first nations who have a connection to the mountains and would allow them better access but also for the general public and a much larger group of people in Bozeman and livingston and billings than who would ever even use the public land on inspiration divide in Big sky.

I urge you to go forward with the land swap. Thanks
