Title:
Comments: I am writing in support of the East Crazy Inspiration Divide Land exchange #63115. Consolidating the public/private lands in the Crazy Mountains and providing clarity on trail easements and utilization will benefit a broad range of user groups. Checkerboard ownership is complicated and underutilized- the plan cleans up the overall ownership structure and will lead to a more effective/seamless use of the area. I am equally supportive of the Inspiration Divide component of the land exchange- trading the steep, unforgiving land adjacent to YC for the high alpine terrain adjacent to Cedar Mountain is a win for everyone.
