First name: Susan

Last name: Greenleaf

Organization:

Title:

Comments: I think this is a bad idea. Already the ski area is frequently crowded. The town is crowded, without enough worker housing. This is already a significant problem, and this project would greatly contribute to it. Bigger isn't always better! Let's maintain the current quality of life and skiing we have. A huge development like this would negatively impact many aspects of life here, and contribute to many problems, further crowd trailheads, campgrounds and other recreational areas. It's a bad idea.
