Comments: I have been coming to this area of the country every year, since I was 20 years of age. I just recently had my 43 birthday! I consider this area one of my most beloved places to visit. I've have worked in the Sweet Grass area, I have laughed, and I have cried, but most importantly, I have got to know the many families in this area, that call this place home. There is no doubt in my mind, that this land exchange would not only benefit the forest service, but also these families that call this place home. Not only will help allow access for park service land, but it will also ensure that for generations to come, these families will continue to put their conservationist efforts forward, thus keeping these lands pristine , and how they were meant to be enjoyed. Thank you for your consideration on this topic. It means more then you know.
