First name: Michael

Last name: Chulyak

Organization:

Title:

Comments: As a local business owner and avid outdoorsmen, I believe this exchange is a win-win solution for the public and private landowners. The new trail system will increase opportunity for the public use of public lands while moderating trespass issues that currently exist on the east side of the Crazy Mountains. The grassroots work and this this proposal has been inspiring in our community and I fully support this land exchange proposal.
