Comments: As a small business owner in Big Timber, MT and an avid fisherman and hunter, I support the land exchange proposal #63115. I appreciate and respect the work that the landowners, outdoorsmen, recreationists, conservationists and forest service have done to come up with a working solution for everyone.

As a manual wheelchair user who uses public lands and who is grateful for the work that you have done on some public lands, I would appreciate more consideration and accessability isssues at Montana fishing access sites, Halfmoon trailhead and the parking lots that serve those areas.
