Comments: I strongly oppose the "East Crazy Inspiration Divide Land Exchange" as proposed by the USFS. I believe this exchange is not in the best interest of the public and will further degrade access by the public to quality hunting, fishing, and overall access to these beautiful and treasured public lands.

After reviewing aspects of the proposed exchange I oppose this exchange for the following reasons:

The public loses miles of fishable streams

The public trades high quality, low-land wildlife habitat for higher, steeper, less productive habitat.

The public loses hunting and angling opportunity (as acknowledged in the USFS's PEA)

The public loses more water rights than it gains

The public gives 100% of mineral rights and receives only 18% in return

The public gives up two important and historic trails and four administrative roads in return for one trail.

The public loses over 40 acres of wetlands

Lastly there is no disclosure of land or timber value lost by the public.

I urge you to stop this transfer and protect the public's access to this treasured public resource for generations to come.
