Comments: I am submitting this in opposition to the East Crazy Inspiration Divide Land Exchange #63115.

As a hiker, backpacker, fisherman, and hunter, and public land and wildlife advocate, I wish the Crazies' public lands to be accessible to my grandchildren and their grandchildren. The prescriptive historical trails provide that access, but now are at risk to be closed forever. Don't let that happen.

Please continue to endeavor to balance both private property rights and public access rights and privileges to access publicly owned lands.

Respectfully, Dick Shockley
