First name: bob

Last name: stocker

Organization:

Title:

Comments: I am very opposed to this land transfer and wish we could be more mindful of the current and more importantly the future generations of ranchers and public land enthusiasts. Enough caving to the out of state billionaires who through their wealth want to dictate all the rules .

Land Management is essential but lets find better resourceful ways to do it and not rush to highest bidders whims and quickly extinguish our title to the 'last best place'.
