Comments: I have worked, lived and recreated in and near this area of the Crazy Mountains and have grown to know the families involved in this transaction well. Upon consummation of this land exchange, the federal land in question will be under the care of families and ranchers with generations of experience being stewards of the land in this part of the State of Montana.

Further, this transaction is a fair quid pro quo for the USFS giving them unencumbered access to lands in the Crazy Mountains that will ultimately be open for other Montanans to enjoy without encroaching upon the property rights of private land owners.

I wholeheartedly support this land exchange and look forward to seeing it agreed to.
