Comments: I understand the need to reroute trails around areas to be logged. The trails now are very enjoyable! I hope any rerouted trails are similar to those existing not straight and uninteresting! Trailhead parking area now is nice because shady spots are usually available. Please do not remove trees to open up more parking space! Riding bikes on roads with cars and trucks can be very nerve racking so when ever possible trails as far from existing roads would be preferable to me. Thank you for allowing me to comment on trail reroutes at Boggy Draw!
