Comments: Hello,

I am an avid user of the Boggy Draw trail system on a year-round basis. I enjoy mountain biking, hiking, and nordic skiing throughout the trail network. I am writing in regard to the upcoming logging operation scheduled for the Boggy Draw area. I support the proposed reroutes of trail that Southwest Colorado Cycling Association has developed to maintain user access through rerouting trails to avoid the logging project.

In order to maintain access and integrity of the trail system, SWCCA will need to begin trail construction ASAP! I urge you and the SJNF officials to pass whatever is needed to expedite the process and allow their dedicated volunteers to get to work. Thank you!

With regards,

Jake Quigley
