Comments: Hello, I have recently reviewed the proposed land swap in the Crazy Mountains and I am opposed to the swap. The swap concedes to private landowner demands without providing an improvement in public access or value to the public. In particular, I am strongly opposed to abandoning existing public access easements, the lack of mineral and water rights conveyed to the public in the exchange, and the loss of public wetland acres.

Please put the priorities of everyday Montanans first and do not proceed with this land swap which only benefits the wealthy elite.
