Title:

Comments: I have lived in Sweet Grass County for over 30 years, am a landowner, have retired from an active business, and remain moderately active agriculturally.

I totally support the East Crazy Inspiration Divide Land Exchange #63115. All involved parties have diligently worked to achieve a balanced option in which everyone has made compromises for the greater good. The Land Exchange could provide solutions for years to come for the multi generational landowners as well as the forest users.
