First name: Paul

Last name: Binford

Organization:

Title:

Comments: I'm a member of Idaho Rivers United, an organization that is trying to bring back the salmon and steelhead migrations in the upper Snake River and its tributaries. This mine can only harm the efforts to continue the spawning of the wild fish that contribute so much to our health, well-being and the economy of the region.

Please stop any further development of the Stibnite Gold Project.

Paul Binford
