Title:

Comments: As fourth generation Idahoans our family is deeply opposed to the Perpetua's proposed stibnite mine on the South Fork of the Salmon River. What can we say that would sway Forest Service officials to deny Perpetua's damage to and destruction of this precious ecosystem? Endangered salmon habitat? Continuity of wild forests and home to countless wild animals? A realm of beauty and wildness that would be obliterated by daily truck trips, feverish lights and noise? We must stop this destruction and deny Perpetua their permit to extract and profit from what belongs to all of us, animals first of all.
