Title:

Comments: I support the consolidation of public lands and roadless habitat.

Alternative B would consolidate public lands.

I support permanently resolving public access trail disputes.

The status-quo just isn't working. Alternative B would resolve a long-simmering dispute over the legality and location of trail #136, by constructing a new 22-mile trail in the Crazy Mountains.

I support sacred and cultural values in the Crazy Mountains.

Alternative B would permanently protect Crazy Peak, an important vision quest site, with conservation easements and allow access to the Apsaalooké Crow for the continuation of cultural practices.

I support opening Smeller Lake for public use.

Alternative B would permanently open Smeller Lake up for public use and enjoyment. A 640-acre parcel containing the lake is now included in the land exchange, converting an additional private inholding in the interior of the Crazy Mountain Range to public land.

Please consider supporting Alternative B.
