Comments: As a Sweet Grass County landowner, rancher, and user of public lands I strongly support the East Crazy Inspiration Divide Land Exchange Alternative B as currently proposed by the Forest Service. I personally know many of the parties involved in the negotiations for this project and know that they worked extremely hard to find a reasonable solution for all interested parties. This proposal would lead to important and broadly beneficial consolidation of public lands and would provide a permanent solution to a decades-long point of contention between private property owners and users of public lands. I urge the Forest Service to adopt this balanced and collaboratively developed proposal.
