Comments: To Whom It May Concern,

Thank you for the opportunity to comment on the East Crazy Inspiration Divide Land Exchange #63115. I am very concerned that this exchange will leave the Crazy Mountains vulnerable to future development that places such as Big Sky have faced. It's critical to ensure that as Montana faces the current population increase, there are places still protected from massive development of luxury amenities and high-end real estate, which are not for the public to enjoy. It is heartbreaking to think about what the plan as is will mean for our region.

Thank you for your consideration,

Bronya Lechtman
