First name: Kelly

Last name: Baraby

Organization:

Title:

Comments: I and my family oppose this swap. the loss of access points, and especially the Sweet Grass Trail #122 and bottom land would put the ecosystem at risk to the the whim of development! NO NO NO this is not of benefit to the public and our state, our environment and protecting this ecosystem.

Enough of trading quality to the rich and sacrificing our states resources. We say no.

Kelly Baraby
