Title:

Comments: I appreciate the Forest Service working with SWCCA to ensure continued safe recreation in the Boggy Draw trail system. I support the construction of new trails as planned with SWCCA prior to the start of the logging project. I also support connection of the town trails with the Boggy Draw trail system via the current trail that starts at 14th street and proposed trail paralleling Road 31 and connecting to Bean Canyon. Finally, I appreciate the appearance and naturalness of the trailhead at Boggy Draw. The trees and shrubs help to keep the area and our cars cooler in the summer. The toilet is also appreciated. Thank you for working with our local trail organizations. If SWCCA has the opportunity to build these new trails, I will support their efforts through volunteer hours.
