Comments: Dear USFS,

As a resident of ID and a concerned citizen I strongly request that you support the 'No Action Alternative' that does not allow any mining, ore processing, or related activities. The risks to our healthy, clean, free-flowing rivers, and all the constituents who benefit from them (e.g., fish, wildlife, humans, etc.), is simply too great to allow short-term profits from gold mining activities to take place. Risks include potentially catastrophic impacts to sensitive, threatened, and endangered species; water quality, recreation, human health, and recreational opportunities and the economies they support. In short, please protect Idaho's natural resources and stop the Stibnite Gold Project.

Thank you for your consideration.

Andre Kohler
