Title:

Comments: As a local resident, hiker, mountain biker, outdoorsman and naturalist, I support the proposed trail re-routes at the Boggy Draw recreation area as related to the upcoming logging project. I request the trail re-routes be completed before any logging operations begin, for the safety of all involved. I also pledge my continued membership any volunteer work efforts with SWCCA to maintain these areas. Furthermore, the joy of visiting Boggy Draw rests in its natural setting in the beautiful forest. Please make every attempt to maintain these peaceful place and keep the disruptions to a minimum. Dust and noise mitigation must be addressed. Please use this opportunity to make improvements and not detract from the joy of visiting OUR National Forests!

Regards, Steve
