Comments: The DEIS fails to meet the regulatory standard to justify crossing the Jefferson National Forest. The applicant is required to show that there is NO reasonable alternative to crossing Forest Service lands or the request must be denied. The applicant and FERC have merely given the opinion that the route crossing the Forest is preferable - this does not satisfy the law.

I mean this seems like a no-brainer, just look at the Keystone Pipeline's recent failure.

Why do we as humans continue to sacrifice the natural habitats that we and future generations need to survive?
