Comments: This letter is in support of the proposed development of the Boggy Draw Parking and bathroom facilities as outlined in the EAS. As a volunteer trail worker for SWCCA I feel the proposed trail modifications are prudent and well thought out. Additionally, the proposed new parking areas make sense as there are often cars parked along the road which can create a hazard to drivers in that area.

As an avid hiker and biker in this area I appreciate the opportunity to support these efforts. Thank you.
