Stibnite Gold Project EIS #50516

To Whom It May Concern,

Please cancel the Stibnite project due to the environmental turmoil it will cause for the environment, nature, plants and animals, wildlife. And to protect the precious and already threatened Snake River watershed.

We are willing to forgo all gold products -of all kinds- in order to protect this precious area in perpetuity. Not in Idaho please.

Thank you,

E Thompson  
San Diego, CA.
