Comments: I enjoy the natural beauty of Idaho and all the natural resources available to us. When I first moved to Idaho in 2002 from Tennessee it was because of Idaho's natural beauty (parks, rivers, lakes, mountains, and flora/fauna). My family floats the Boise River during the summer, hikes along the greenbelt, and enjoys the hot springs along the Boise River up at Sheep Creek, Loftus, Vaugh, and Brown's Creek. The outflow from the mine will add pollutants and more silt to the river which will negatively effect the Boise River. We are NOT in favor of mining on one of our most precious waterways.
