Comments: As a 21 year old who appreciates the outdoors for it's natural, untouched and unpolluted qualities. I recognize the value that the proposed stibnite mine threatens. It threatens the wildlife that depends on a clean river and the people depend on that wildlife. It threatens the ability of future generations to be able to witness and enjoy nature.

I believe that it is the responsibility of our government to protect things such as the South Fork of the Salmon and to hold the interest of the people it was created to serve over the monetary power and influence of Stibnite Mine and Perpetua Resources.
