First name: Chris

Last name: Barkey

Organization:

Title:

Comments: I oppose this project. It is always the water and its course that get maligned by big business. These places are what heals the souls of Americans. These places are for peace and quiet, yet we want to blow it up for big corporations to make big money. Stop the drive to destroy natural places and put the energy into the heart and mind of the people. The soul of these waterways can't be forgotten.
