Title:

Comments: Supplemental Draft Environmental Impact Statement (SDEIS) for the proposed Stibnite Gold Project. The proposed open pit cyanide leach mine is located east of Cascade and McCall, in the headwaters of the East Fork South Fork Salmon River. ICL and our partners have identified numerous concerns with the mining project, including unacceptable impacts to fisheries, wildlife, and water quality, to name a few. The proposal also comes with significant concerns regarding transportation and impacts to roadless and Wilderness areas. please do not destroy the natural beauty and health of our state.
