Comments: There are things more precious than gold, including wilderness and salmon runs.

There is a greater good beyond miners' and developers' profits - 1 company???? Who are they by comparison?

Please choose the greater good and do not allow them to poison a pristine wilderness.

I am happy to sell these miners a bunch of stupid old gold jewelry from generations of my family if they are fools enough to think it has intrinsic value.

Living soil, pure water and quiet has much more benefit for 7 generations.

Signed by one of the grandmothers. . .
