Comments: Any other "preferred alternative" than denying the permit for Perpetua Resource's Stibnite Gold Project & Description (Project & Description of the Project & Description of the Pro

This is a Wilderness - the damage to the river & price is a wildlife - should make it obvious the last thing this area needs is more toxic mining, wildlife disturbance & price is more toxic mining.

This country - this planet - needs more wildlife habitat - not less.

The lack of water & project in far too many areas make clear this kind of "project" needs to be prevented.
