Comments: Do not endorse Perpetua Resources (formerly Midas Gold) massive strip mine proposal on the Payette National Forest at the doorstep of the famed Frank Church-River of No Return Wilderness and in the headwaters of the East Fork of the South Fork of the Salmon River in Idaho. Perpetua Resources has not cleaned up their former messes but now wants to re-open and expand former mine pits here for its proposed cyanide vat leach gold mine called Stibnite Gold Project.

The mine puts not only the Wilderness at risk, but also this important river and endangered species such as salmon, steelhead, and bull trout. It is a disaster ready to happen.

This proposal is a bad idea for everyone. We are ruining our planet. We need to reject any company's greedy proposal that disregards our planet's health and the health of all its inhabitants.
