Title:

Comments: Given what is happening with the climate these days it idea that anyone would seriously think that danger to any part of the Frank Church-River of No Return Wilderness at risk, but also the East Fork of the South Fork of the Salmon River and endangered species such as salmon, steelhead, and bull trout. Please don't allow this. This is greed not care of the Wilderness and needs to be stopped before it starts.

I ask you, who will benefit from this? The animals, the peace and quiet, an unspoiled protected place. No. The owners of Perpetua. Their interest is in the name Always stibnite gold.

There is plenty of gold in the world. Places like the wilderness and the South Fork of the Salmon River are getting rarer by the day.
