First name: Susan

Last name: Gilmore

Organization:

Title:

Comments: I'm writing to beg you to protect the River of No Return Wilderness Area by denying Perpetua Resources' permit application to expand its mining in this area and by insisting it complete the current clean up needed. The last thing this precious wilderness area needs is more toxic mining. Denying the permit and protecting this land also shows respect for the Nez Perce Tribe, which has been working to clean and protect these lands for all of us.

Thank you for saving our lands!
